Certified work protective footwear according to EN ISO 20347:2012 OB A E FO SRC

Clogs with chemical motifs, specially designed for laboratory use, are a perfect combination of comfort and functionality.

These orthopedic, anatomical clogs are certified work protective footwear that has a positive impact on foot health, especially for those who spend a lot of time standing, as they stimulate reflex points on the soles and promote blood circulation.

White color and strap for fastening provide a closed appearance without perforations, ensuring safe use even in case of liquid spills.
